Playa de la Concha is one of the most popular urban beaches in all of Europe!

This man is taking a walk on the beach promenade. He knows not to climb on the railings. It is a long way down to the beach!

This is a busy place. The road is next to the promenade in some places and people are riding bicycles and skateboards. Keep an eye out!

To get down to the beach you have to use the stairs. Let's go down and walk on the sand!

Ability Guidebooks are step-by-step instructions on how to access community destinations. For many people with autism and neuro-diversity, new situations can cause stress and discomfort. Ability Guidebooks help prepare people for new experiences. This is why I emphasize the places to sit and areas to relax.

This book will also help general ed teachers prepare their young students for a visit this beautiful beach.
