Ability Guidebooks are step-by-step instructions on how to access community destinations. For many people with autism and neuro-diversity, new situations can cause stress and discomfort. Ability Guidebooks help prepare people for new experiences. This is why I emphasize the places to sit and areas to relax.

**This book will also help general ed teachers prepare their young students to visit
The Monument Aux Morts.**

Can You Translate?

**If you can translate this book into any other language
